DETAILED ACTION

1. This Office action is in response to Application No. 10/001,580 filed on 11/01/2001.
2. Claims 1-25 are presented for examination.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-7, 10-14, 16-25 are rejected under 35 U.S.C. 102 (b) as being anticipated by Teicher et al. (U.S. Pat. No. 5,933,813).

Art Unit: 2161

As per claims 1, 6, 7, 10, 16, 17, 18, 21, 23, 24 and 25 Teicher discloses a data processor system for promoting sales of products includes price storage devices for storing basic price information; criteria storage devices for storing predetermined criteria to be used in determining sales promotion prices (which is seen to read as Applicant's claimed invention wherein it is stated that a system for selling or pricing a product), the system comprising:

a data collection system configured to collect data relating to the product (see., abstract, lines 1-10, specifically wherein it is stated that a data processor for promoting sales of products includes price storage devices for storing basic price information....., please note that the basic price information also includes the basic price of the products);

a pricing system in electronic communication with the data collection system, the pricing system configured to sell or price the product in accordance with the data relating to the product (see., abstract, specifically wherein it is stated that a data processor for promoting sales of products includes price storage devices for storing basic price information; criteria storage devices for storing predetermined criteria to be used in determining sales promotion prices, and also col 1, lines 36-50, col 2, lines 16-34, col 3, lines 52-67, col 4, lines 1-28).

As per claims 2, 12, 13, 14, 20, 22, Teicher discloses the claimed limitation, wherein the price system is in electronic communication with the data collection system via wireless transmitter (see., fig 8, col 6, lines 45-51).

Art Unit: 2161

As per claims 3, 4, Teicher discloses the claimed limitation, wherein the data relating to the product is location data (see., abstract, please note that storage devices are also location data).

As per claims 5, 11, 19, Teicher discloses the claimed limitation, wherein the data relating to the product is data relating to at least one selected operational parameter (see., abstract, lines 1-4, specifically wherein it is stated that criteria storage devices for storing predetermined criteria to be used in determining sales promotion prices, please note that the predetermined criteria is seen to read as the operational parameter).

Claim Rejections - 35 USC § 103

5. **The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:**

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

6. **Claims 8, 9 and 15 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Teicher et al. (U.S. pat. No. 5,933,813) in view of Von Kohorn (U.S. Pat. No. 5,227,874).**

As per claims 8, 9 and 15, Teicher substantially discloses the claimed limitations as stated in claim 1 above. It is noted that Teicher does not explicitly disclose that the product is an insurance, a warranty, and security system. However, Von Kohorn discloses a method for the evaluation of

Art Unit: 2161

stimuli such as broadcast commercials intended to promote purchases by shoppers. A prize-winning respondent can select a product from a listing and apply the value of a prize to the purchase price of the selected product . Wherein the term product also includes insurance, warranties, and security (see., Von Kohorn, abstract, col 47, lines 1-9, col 97, lines 64-68, col 98, lines 1-64, col 101, lines 13-19). Accordingly, it would have been obvious to a person of ordinary skill in the art at the time the invention was made to modify the teaching of Teicher by including the limitations detailed above taught by Von Kohorn because it is a routine business practice to provide insurance and warranty for a product.
